

SERIES 1101/1120 PANEL SYSTEM

ARCHITECTURAL SYSTEM FOR COMMERCIAL AND RESIDENTIAL

1" ARCHITECTURAL SNAP-LOCK PANEL SYSTEM

Englert's Series 1101/1120 system is designed for sloped roofs and other exterior surfaces of light commercial and residential projects. The 1101/1120 profile, with a concealed integrated nail strip and fasteners, requires no mechanical seaming or separate seam cap. The narrow standing seam can be detailed to provide a smooth transition from roof to fascia or mansard. The clipless design lends itself to fast and easy installations.

SYSTEM APPLICATIONS

- Light duty for residential and commercial use
- 3⁷/₁₂" minimum slope
- Must be installed over a solid deck

SUBSTRATES

- 26 and 24 gauge steel
